Why do we need this information?

EPA needs background information on your facility to evaluate your application.

What do you need to do?

- ♦ Provide background information on your facility.
- ♦ Identify your environmental requirements.

Section A

Tell us about your facility.

1 What do you do or make at your facility?

Xanterra Parks & Resorts® is the country's largest park & resort management company. We emphasize ecologically sensitive tourism which has resulted in our environmental management and conservation programs at national parks having received widespread acclaim.

Bryce Canyon Lodge has been completely renovated to its original rustic 1920s elegance - down to replicas of the lodge's original hickory furniture - this beautiful "in-the-park" lodge is on the National Historic Register. Western cabins feature gas fireplaces, two queen beds and full baths. They are within a short walk to both the rim and the lodge. This quiet and relaxed atmosphere, without televisions, allows the guest to get reacquainted with nature. Fine dining is available in the main lodge.

2 List the North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.

Expiration Date:

- 4 How many employees (full-time equivalents) currently work at your facility? If you checked "Yes" in question 3 and have fewer than 50 employees at your facility, then you are considered a "small facility" by the Performance Track Program.

- ☐ Fewer than 50
☐ 50-99
☒ 100-499
☐ 500-1,000
☐ More than 1,000

SEASONAL OPERATION (April 01 to October 31)

- 5 Complete the Environmental Requirements Checklist on pages 32-38 of the instructions and enclose it with your application.

- 6 Optional: Is there anything else you would like to tell us about your facility? Do you participate in other voluntary programs at the local, tribal, State, or Federal level?

At Xanterra Parks & Resorts® we realize that the well-being of our company, and ultimately the Earth, depend upon the continued health of natural systems. We believe that it is impossible for businesses to be economically sustainable without being ecologically responsible.

At Bryce Canyon Lodge, we participate in the EPA Energy Star program; we are members of the Green Hotel Association and are ISO 14001 Certified.

We regularly participate in, or sponsor, community events around Bryce Canyon National Park (e.g. the local 4th of July Parade).

We have created what may be the tourism industry's first Environmental Performance Metrics. The company's metrics are defined using annual totals of resource consumption, as well as totals per room night (resources consumed divided by the total number of lodging rooms occupied in one calendar year). The metrics focus on those areas that are most significant and measurable to a high level of accuracy.

The company's overall environmental performance is summarized by looking at annual trends of four metrics:

- Energy usage (includes electricity, natural gas, propane, fuel oil, gasoline, and diesel fuel)
- Primary greenhouse gas emissions (CO₂)
- Criteria air pollutant emissions (NO₂, SO₂, PM₁₀, VOCs, and CO)
- Solid waste generation and recycling

Xanterra Parks and Resorts® is the only company in the concession industry to publish a Corporate Sustainability Report. This report can be viewed at our website, www.xanterra.com, under "Environmental Action."

Why do we need this information?

Facilities need to have an operating Environmental Management System (EMS) that meets certain requirements.

What do you need to do?

- ♦ Confirm that your EMS meets the Performance Track requirements.
- ♦ Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

Section B

Tell us about your EMS.

Why do we need this information?

Facilities need to show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

Section C

Tell us about your past achievements and future commitments.

Part 1 You must report past achievements for at least two environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the instructions. Please quantify each of your aspects using the units listed for that aspect in the Environmental PTrack Information Hotline at 1-888-339-PTRK.

Note to small facilities: If you are a small facility, you must report past achievements for only one environmental aspect.

First achievement

1 What aspect have you selected from the Table on page 29-31?	Total Water Use	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	Total Gallons	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	8,946,140	7,559,380
4 What are the years for which you are reporting these quantities?	2000	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	1.0	1.01
6 What is your normalizing factor based on (e.g., production, employment)?	Nights stay (# of rooms sold during year)

Second achievement

1 What aspect have you selected from the Table on page 29-31?	Total Energy Use - Propane	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	Gallons	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	52,409	48,268
4 What are the years for which you are reporting these quantities?	2000	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	1.0	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	Nights stay (# of rooms sold during year)	
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	Conservation education efforts and management diligence.	

Part 2 You must make future commitments for at least four environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the Instructions. The aspects you select for your future commitments should be related to the objectives and targets in your EMS. Where possible, they also should be identified as having a significant environmental impact in your EMS. No more than two of your aspects can be from the same environmental category. If you're not sure how your objectives and targets fit into our aspects or whether your aspects are significant, call the PTrack Information Hotline at 1-888-339-PTRK.

Once you have chosen your four environmental aspects, then fill in all the necessary information for these aspects in the tables on pages 7-10 of this form. Please quantify each of your aspects using the units listed for that aspect in the Environmental Performance Table. Each table that you must fill in corresponds to one of the environmental aspects you have chosen.

We will assume that your performance commitments are based on a constant production or employment level. If you would like to base your commitment on changing production or employment, please fill out optional questions 6a and 6b.

Why do we need this information?

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

What do you need to do?

- ♦ Describe your approach to public outreach.
- ♦ List three references who are familiar with your facility.

Section D

Tell us about your public outreach and reporting.

1 How do you identify and respond to community concerns?

This is part of the communication process of our ISO 14001 EMS. We regularly communicate with the Park Service who is responsible for fielding information from the public. We also have a very comprehensive comment card system set up to receive feedback on our operational performance.

2 How do you inform community members of important matters that affect them?

Through newsletters, the newspaper, radio or communications with the Park Service.

3 How will you make the Performance Track Annual Performance Report available to the public?

Application and Participation Statement.

On behalf of: Bryce Canyon Lodge, Xanterra Parks and Resorts
[my facility],

I certify that

I have read and agree to the terms and conditions for Application and Participation in the National Environmental Performance Track, as specified in the *National Environmental Performance Track Program Guide* and in the *Application Instructions*;

- I have personally examined and am familiar with the information contained in this Application, including the Environmental Requirements Checklist. The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements;
- My facility has an environmental management system (EMS), as defined in the Performance Track EMS requirements, including systems to maintain compliance with all applicable Federal, State, tribal, and local environmental requirements in place at the facility, and the EMS will be maintained for the duration of the facility's participation in the program;
- My facility has conducted an objective assessment of its compliance with all Federal, State, tribal, and local environmental requirements, and the facility has corrected all identified instances of potential or actual noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable Federal, State, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Performance Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

Paperwork Reduction Act Notice

The public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460.
